Good Afternoon. I wanted to get out a few words out to all of you as we close out 2020. I would like to thank everyone for sticking together through the most difficult period in any of our lives. I pray that our children, grandchildren, family and friends never have to endure anything like this again. During this difficult time we showed the world that by working together that we can overcome any obstacle. It has been my honor working for all of you.

My advice to my family and associates in my company for the New Year was this: **Run with a Purpose in 2021.** With the New Year comes fresh starts, resolutions, and new beginnings. It's a good time to reevaluate what you're doing. Refocus your life and get rid of any distractions. I have learned the value of time this past year, and see clearer that each day is a true gift, one that I should never waste.

We all have a unique gifts and talents on the inside. I challenge my children and team to not take up space. We are all people of destiny. We all have the responsibility to develop our talents, to pursue your dreams, and to become who we are supposed to be.

2020 was a challenge, but its behind us, let's set new goals for 2021, work together , live like we never lived before and just be grateful for everyday that we have and treat it like the gift that it is. Run with a purpose and start taking steps to improve your use of time, achieve your goals and to love and care for all those around you.

From the Tobia Family to all of you, may God bless each and every one of you with his love, your life, and an amazing 2021.

Supervisor John Tobia

Happy New Year!
