

To each resident,

As the Covid-19 pandemic has swept the world in 2019-21, the Association of Public Historians of NYS feels it is important to document the present for future historians.

In an effort to record the experiences of our local community during this transformative period we are asking that the public contribute their personal accounts, observations and creative thoughts to our archive.

Thank you for your contribution to this important project.

~

When did you become aware of COVID-19?

Have you tested positive for COVID-19? Yes No
Close family or friend tested positive Yes No

Has your family-life, work life, educational pursuits or travel habits been altered since Covid-19 emerged? Yes No

Has your access to home supplies/furnishings/etc. or food, medicine or childcare been affected by the Covid-19 shutdowns? Yes No

What will be different about your life after the Covid-19 pandemic has subsided?

What would you want the residents of North Collins to know about the Covid-19 pandemic 100 years from now? Comments:

Name (signature) _____
